

## **Art & Design (Photography) A Level Entry Summer Work**

---

We look forward to welcoming you to the Art & Photography Department at HSFC in September. To help you prepare for your new course, we have designed a series of creative tasks to develop your photographic skills and spark your imagination.

We are looking for playful, creative, and imaginative photographic responses to the following four themes:

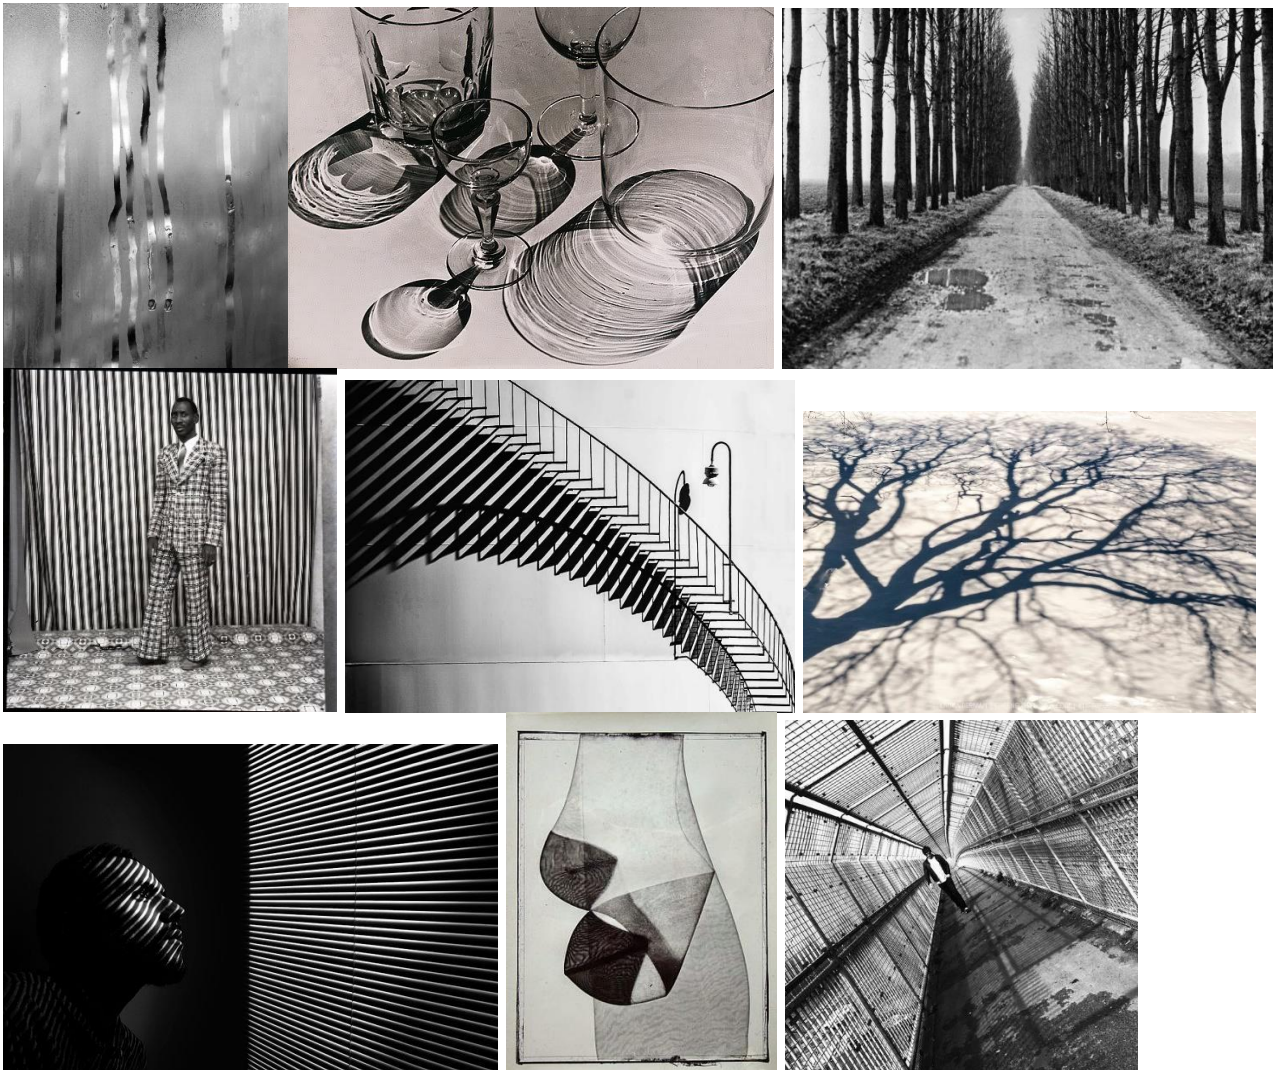

### **Line, Shape, Monochrome and Colour.**

For each theme, take 30 photographs and select your six best images (24 in total) to present into a digital portfolio e.g., PowerPoint presentation. Please save your presentation onto a memory stick and bring it to your first lesson.

During this lesson, you will learn how to print your images using the Department printers and explore paper sculpture techniques to creatively re-present your work. Additionally, include a slide in your presentation with images of paper sculptures. See page 6 for more details.

Follow us on Instagram @hsfc.art.photo for inspiration and updates. We will be sharing your responses to each task, as well as showcasing the work of current and former students. Share your work with us by using the hashtag #hsfcsummerschool and tagging us @hsfc.art.photo. We hope you enjoy exploring and experimenting!
