

Music Performance - Preparatory Work 2026

In the Music Performance course, we start by learning about different styles of music from 1950 to the present day.

We will be studying what makes each style of music unique, what musical and instrumental techniques are used to achieve this, and how to perform using these techniques confidently.

You should start by listening **as widely as possible** to music from this time (**1950 - present day**). To help you do this, we have created a short form for you to fill out before starting the Music Performance course.

This form will also help us identify your strengths and areas for development, and will help you prepare for some of the different kinds of learning we do in this course.

Please go to tinyurl.com/MPerfPrep26 to fill out this form.
